

Bulletin №1 of 09.09.2019

Additions to the Baja Russia 2019 competition rules.

It is allowed to use cars that previously participated in the Baja Russia competitions, subject to the following requirements:

- **the car complies with the 2019 rules (if the inconsistency of the rules implies a change in the frame structure, it is necessary to describe the issue and send it to alexander@bajarussia.org for approval the participation of the car);**
- **the car is equipped with a Briggs & Stratton 10 HP OHV Vanguard Model 19L232 engine (specifications that defined in the rules) or Briggs & Stratton 10 HP I / C of any specification.**
- **when evaluating a technical presentation, the team will not be fined, but the judges will be informed and they will take into account the fact that the car took part in previous Baja Russia competitions.**

Bulletin №2 of 09.09.2019

Additions to the Baja Russia 2019 competition rules.

It is allowed to use two cars from one university only if there are two teams, to which the following additional requirements apply:

- the presence of at least four pilots, without the possibility of cross-operation of cars at dynamic events. At static events the compositions of the two teams can be mixed;**
- evaluation for static and dynamic events, as well as the overall result will be taken into account for each team separately.**
